

Publication Rankings in Scientific Journals

After consulting the qualifications of CAPES (valid in Brazil) and Scimago (followed in Europe) differences have been noted.

When you want to participate in a selection outside Brazil it is very important to consult your publication at <https://www.scimagojr.com/>

If you want to participate in a selection process outside of Brazil, should consult the Scimago Journal Ranking.

In Scimago Journal & Country Rank, the classifications vary from Q1 to Q4 (journal ranking quartiles), in descending order.

In the Qualis Capes system, the classification of periodicals range from A1 to C, being the first the highest. Some examples below:

1. Computational Particle Mechanics

- Qualis Capes:

Engenharias I - B2

Engenharias III - B4

- Scimago Journal & Country Rank:

Q1 - THE HIGHEST!

(see bottom page)

2. European Journal of Mechanics, B/Fluids

- Qualis Capes:

Engenharias III - B1

Interdisciplinar - B1

- Scimago Journal & Country Rank: Q2

Font:

<https://www.scimagojr.com/journalsearch.php?q=13878&tip=sid&clean=0>

3. Continuum Mechanics and Thermodynamics

- Qualis Capes:

Engenharias I - A2

Engenharias III - A2

- Scimago Journal & Country Rank: Q2

Font:

Therefore, consult both classification systems before submitting your manuscript for a scientific journal evaluation.
